

Bojan Đurđević

Full Stack Developer

Phone: +38162640273 pininfarina164@gmail.com Novi Sad, Serbia GitHub LinkedIn

My Portfolio: <https://bojandjurdjevic.github.io/portfolio/>

PROFESSIONAL SUMMARY

Full Stack Developer focused on building modern web applications using Laravel, PHP, TypeScript, JavaScript and Vue.js. Experienced in designing backend systems, REST APIs, database structures and responsive frontend applications. Currently focused on developing scalable SaaS platforms and improving full stack development skills through real-world projects.

TECHNICAL SKILLS

Backend: PHP, Laravel, REST APIs, MySQL, MVC, Authentication, Database Design

Frontend: JavaScript, TypeScript, Vue.js, Alpine.js, Tailwind CSS, Responsive Design

Tools: Git, GitHub, Vite, npm, pnpm

PROJECTS

BookYourHotel

Hotel Management SaaS

[Laravel](#) · [Livewire](#) · [Alpine.js](#) · [Tailwind CSS](#) · [MySQL](#)

- Developed a multi-hotel management platform with room management, inventory calendar and supplier dashboard.
- Implemented room availability management, seasonal pricing and role-based access control.
- Designed scalable backend structure using Laravel MVC patterns and relational database design.

KombiTransfer

Reservation Platform

[PHP](#) · [Vue.js](#) · [Vuetify](#) · [MySQL](#)

- Built a passenger transportation reservation platform with online booking functionality.
- Developed frontend interfaces using Vue.js and Vuetify.
- Created backend logic for routes, departures and reservation management.

Automarket

Car Marketplace

[Laravel API](#) · [TypeScript](#) · [Vite](#)

- Building a modern marketplace application using Laravel API backend and TypeScript frontend.
- Implementing REST API architecture and modern frontend development workflow.

EXPERIENCE

OceanCall

Spanish Team Supervisor

2024 — Present

- Lead and support a Spanish-speaking customer service team in a fast-paced international environment.
- Coordinate daily operations, monitor performance and provide guidance to improve team efficiency and service quality.
- Analyze operational challenges, solve problems and help optimize internal processes.

Enon Solutions

Software Development Intern

2023 — 2024

- Developed frontend components using Vue.js and worked with backend services built with Node.js.
- Managed data operations with MySQL databases and integrated frontend and backend functionality.
- Worked on backend logic, database operations and frontend components.
- Applied concepts such as API communication, database design and frontend-backend integration.

Transcom

Customer Service Representative

2021 — 2022

- Provided customer support in an international environment, resolving customer issues and maintaining service quality.
- Strengthened communication, analytical thinking and problem-solving skills.

Elementary School Ivan Gundulić - Novi Sad

Teacher

2008 — 2020

- Developed strong organizational, communication and mentoring skills through long-term educational work.
- Planned, structured and delivered lessons while managing multiple responsibilities.
